

An Old Prejudice Against Beer Completely Overthrown

Instead of an intoxicating liquor, a good beer like **AMERICAN QUEEN** is now being looked upon and declared by chemical scientists to be a *beneficial liquid food*. The amount of nutrition contained makes it equal to bread. The hops are a nerve tonic; the salts rebuild the bones, and the small percentage of alcohol (3 1-2 per cent.) insures digestion of the food properties.

As a purely temperance drink, its standing is at once honorably established by the following comparison with whiskey:

American Queen Beer

contains 3 1-2 per cent. of alcohol, whiskey 5 1-2 per cent., and when its heavy nutrition is considered, these facts and comparisons are all that need be cited.

Order a case for home consumption. It brings health and good cheer

ACME BREWING CO.
MACON, GEORGIA

SEVEN DAYS IN AMERICAN HISTORY

- July 15—1530—Cortez arrives at Vera Cruz.
1675—Peace made in Massachusetts with the Narragansett Indians.
1742—Spaniards retire from attack on Savannah.
1763—All the English forts in the West captured by Indians, except Niagara, Pitt, and Detroit.
1769—Gov. Bernard provokes the Massachusetts general court because it refuses to make provision for the support of British soldiers.
1770—Gen. Wayne recaptures Stono Point, on the Hudson.
1771—Georgia cedes all her western lands to the federal government.
1863—Draft riots in Boston, Brooklyn, and other cities.
1863—President Jefferson Davis, of the Southern Confederacy, issues his first conscription proclamation.
July 16—1755—Halifax proposes to Parliament to ease England by taxing the colonies.
1790—Congress passes an act locating the future seat of the government in the District of Columbia.
1842—House of Representatives passes a bill to restore the protective tariff; duties average about 33 per cent.
1843—Blighting frost in Massachusetts.
July 17—1803—Commodore Preble blockades the port and begins the siege of Tripoli.
1812—Important American post of Mackinaw surprised and captured by the British.
1813—British and Indians repulsed at Fort George.
1862—Congress passes the confiscation act.
1864—Gen. Sherman begins his march to the sea.
1898—San Diego surrendered, virtually ending war with Spain.
July 18—1742—Spaniards defeated at Fort Williams, Ga.
1787—Ratification by Congress concludes treaty of peace with the Emperor of Morocco.
1846—Commodore Stockton captures Los Angeles. (War with Mexico.)

- 1854—Cyclone causes serious loss of life and property in Illinois.
July 19—1861—First overland coach from California arrives in Kansas, having made the trip in seventeen days.
1864—President Lincoln calls for 500,000 volunteers.
1865—The government refuses to recognize Maximilian as Emperor of Mexico.
July 19—1779—Americans fortify West Point.
1810—The King of Prussia, by decree, forbids American vessels entering his ports.
1845—Six million dollar fire in New York.
July 20—1628—The ballot used for the first time in America, in the election of John Wilson as pastor and teacher at Salem.
1783—Russia recognizes the independence of the United States.
1862—Obsequies of Henry Clay celebrated with much pomp; business suspended in many cities.
July 21—1587—Raleigh's second expedition of 117 men and women arrives at Roanoke, but finding no colony, it returns to England.
1861—First battle of Bull Run; Federal army becomes panic stricken and retreats on Washington.

AN AMERICAN IN THE LAND OF MANANA

(Continued From Page Nine.)

place the sad-eyed woman upon whose uncovered breast sleeps a naked child.

Carnival of Killing.
Coming into port in the early morning I witnessed a strange sight; a school of Spanish mackerel came into the harbor. So numerous were they that the water was turned to molten silver. Their appearance precipitated a carnival of killing, such as I never dreamed of. The air was black with pelicans, fish hawks, eagles, and every other bird of prey while the water literally swarmed with sharks, blue fish, and other denizens of the deep. Out of the heavens the great birds would drop like a shot, striking the water with a resounding splash, and the hiss of the shark's dorsal fin as he cut the water like a knife was heard every where. The slaughter continued for an hour until the silly mackerel retired to the depths.

My native servant, a boy of twelve volunteered to bring me an eagle, and I was much interested in his proceedings. He brought forth a small board nailed on a long stake, and paddled out into the harbor. The tide was out, so he carried his outfit a long ways from the shore. Then he pushed the stake into the mud, so that the plank was about two inches under water. Just above the plank, and floating on the surface, he fastened a good-sized fish. Then he came ashore and we waited results. Presently a big pelican came sailing along and spied the bait. With a sudden closing of wings, he dropped like a bolt from the sky, striking headfirst against the plank. Sabo brought him in a few moments later, his neck broken killed instantly. I wanted an eagle, but got a pelican.

To-morrow—that is, manana—we take the train for San Pedro, where our saddle and pack mules and outfit must be engaged for a trip across the continent.

EXCURSION FOR THE POOR OF PENSACOLA

Salvation Army Will Give Over 100 Children an Outing on July 30.

A big excursion and picnic at the Life Saving Station for the poor children of Pensacola has been planned by Capt. Norris, of the Salvation Army and the event will take place on Monday, July 30. The steamer Columbia has been chartered for the occasion, and will leave Palafox street wharf promptly at 9 a. m. for a trip past the Navy Yard and forts to the entrance of the harbor, after which she will land at the Life Saving Station, where a fine dinner will be served to the little ones and the day spent gathering shells, wading in the shallow waters of the bay, and in other forms of amusement popular with children. Arrangements will be made to take care of a crowd of at least 125, as it is expected that many of the mothers of the children will accompany them.

This will be the second excursion given to the poor children of the city by the Salvation Army, the first, which was given about a year ago, having been a great success. On that occasion nearly 100 children were given a day of pleasure on the gulf beach, a large majority of whom, although they had lived in Pensacola all their lives, had never been across the bay. The outing was not only beneficial to the children physically, but has been the means of putting the officers of the Army in touch with the needy of the city, and much good has been accomplished in consequence.

In all of the large cities of the country the Salvation Army posts arrange annual excursions and picnics for the poor children, the result being that it puts them in closer touch with those whom they seek to assist both morally and physically and enables the Army to work for the betterment of their condition.

Capt. Norris requests the assistance of the good people of Pensacola in this undertaking and will call for donations of any character that will serve to make the day enjoyable for the little ones. Pies, cakes, cookies, sandwiches, candy and other articles of like nature will be gladly received and arrangements will be made to call for any articles donated either the Saturday night before the excursion or early on the morning of departure.

THE SMILE
that won't come off, appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since. Sold by all druggists."

NOTICE TO ICE PATRONS.
It has come to our notice through the columns of The Journal that our delivery is unsatisfactory. The company is going to send a representative over each route to investigate in person any troubles that our patrons are having. This will necessarily take some little time. If you have any special complaint, please notify the manager at once, and we will take the matter up immediately. If you have any complaint whatever notify us in order that our agent can go over the matter with you when he calls.

Mustard and Cress From Fort Barrancas

Fort Barrancas, July 14.—That was rather poor poetry last week, boys, I'll admit; still you can't write rhyme with perfect feet when you wear government shoes. I'll take mine off next time I feel the rhyming frenzy coming on. But the pay day grin was in full evidence on Tuesday, wasn't it? From car to car, like a sardine struck by lightning. That was Tuesday. Today it looks like a modest daisy closing its little petals against the storm of ineptulosity.

Top Sergeant Nielson of the 20th Co. and a band of bold and hardy hunters went after turtle one day last week. They caught a big fellow that must have weighed 400 pounds. Si Perkins asked the top "what kind of a critter is that, anyhow?" Its a bird of paradise," said the witty sergeant. "Wal if that's a bird of paradise," said Si, "an he tries to get home with them thar bits of wings, I reckon he'd be more likely to go plumb to hades than to soar to realms above." The company had a fine living on that turtle and even used up the shell by serving it cut up into disks for flapjacks one morning for breakfast.

Captain Castleman's ball team will have to get a move on and play faster and better ball or the number on those pretty red shirts will have to be altered to 23.

The Army and Navy Union will give one of their enjoyable and always popular smokers at Palmetto Beach on Wednesday evening next. There will be music and impromptu speeches and just the kind of refreshments the boys like the most. The P. E. T. Co. has kindly given the garrison the privileges of the park and will run a late train, leaving Palmetto Beach for the navy yard and Barrancas at 11 p. m. Adjutant Russell will act as master of ceremonies.

I wonder why the boys don't turn out in larger numbers at the union service held every Sunday evening at the Post Library? The commanding off-

THE GREATEST OF ALL TONICS

The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is nature's remedy—**PURELY VEGETABLE**—and while it is restoring the lost appetite, overcoming that tired, run-down feeling, and other ailments common to Spring, which warn us that it is necessary to take a tonic, it is purifying the blood of all poisons and waste matters so that it can supply to the system the strength and nourishment it needs to keep it in perfect condition during the depressing summer months that are to follow.

Spring is the season when most every one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation, the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows fickle, the energies give way, the spirits are depressed, and a general run-down condition is the result.

Then the body must have assistance—it must be strengthened and aided by a tonic, and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does not disagreeably affect the system in any way as do most of the so-called tonics on the market, which contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, unfavorably affect the bowels, or otherwise damage the health. S. S. S. tones up the stomach and digestion and assists in the assimilation of food; it rids the system of that always-tired, worn-out feeling, and imparts vigor and tone to every part of the body. It re-establishes the healthy circulation of the blood, stimulates the sluggish organs, and calms the unstrung nerves which make one feel that he is on the verge of prostration. S. S. S. gives an appetite and relish for food that nothing else does, and by its use we can find ourselves with as hearty, hungry an appetite in Spring as at any other season.

It acts more promptly and gives better and more lasting results than any other remedy, and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, debilitated people will find S. S. S. is just the medicine that is needed for the purification of the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring do not experiment, but get the best—the tonic with forty years of success behind it, and the one endorsed by the best people all over the country—**S. S. S., THE GREATEST OF ALL TONICS.** It is necessary at this time, when the system is depleted and weakened at every point, that the right remedy be used—one that is especially adapted to the condition, and S. S. S. has proved itself to be this remedy for many years. If it is taken at the first sign of Spring the system will be so built up and strengthened that the disagreeable affections of the season will not be felt as warmer weather comes on.
